Romney Cases '68 Prospects With Friends

NEW YORK (AP) — Gov. George Romney of Michigan held an all-day meeting here Wednesday with eight top associates and friends to discuss the possibility of his seeking the 1968 Republican presidential nomination.

One of those at the seven-hour session, J. Willard Marriott, a close friend and confidant of Romney, said afterward: "All of us think he is going to be a candidate."

Marriott, of Washington, D.C., head of a national motor hotel chain, said the consensus at the meeting was that Romney has "a better chance than anybody else."

But he noted that the governor had not made any commitment to seek the nomination. Others at the meeting said no decision had been made.

Romney left the meeting at the Waldorf-Astoria Hotel without speaking with newsmen, and flew to Chicago.

Robert McIntosh, a former Romney aide who was at the meeting, hinted that the governor may have requested the meeting and that it may have been on short notice. The meeting was not announced in advance.

One of those at the meeting, Max Fisher, a Detroit businessman who is head of the United Jewish Appeal, said those present continued their efforts to get Romney to seek the nomination.

No Falling Worry

SILVER SPRING, Fla. (AP) — Window washer Ray Carpenter need not worry about fear of heights or falling. But he'd better be able to swim.

His job is under the water — cleaning the huge glass sections in the underwater aquarium here.

Weather

By The Associated Press

ESCANABA AND VICINITY—Cloudy, windy and colder with light snow or snow flurries today, high 24. Snow flurries ending and colder tonight, low 8. Friday partly cloudy and cold. Winds west to northwest (15 to 20 mph) today, diminishing to night. Saturday outlook: mostly cloudy, not as cold. High yesterday, 22 and low overnight, 15. Precipitation probabilities: today, 100%; tonight, 30%; Friday, 10%.

Upper Peninsula — Partly cloudy and a little colder, occasional snow flurries or light snow likely near Lake Superior. Friday partly cloudy to cloudy with chance of light snow and a little warmer west portion. Low tonight 4 to 10, high Friday in the 20s.

The sun sets today at 5:12 p. m., and rises Friday at 8:30 a. m.

Jackie Letter To Khrushchev Told In Book

NEW YORK (AP) — Mrs. John F. Kennedy wrote Premier Nikita Khrushchev before she left the White House that he and President Kennedy, although adversaries, were allied in a determination that the world would not be blown up.

Mrs. Kennedy said she was certain that President Johnson would continue her husband's policy which she termed one of control and restraint.

A spokesman for the Kennedy family confirmed today that the letter will be in the Look magazine serialization of William Manchester's book, "The Death of a President." The spokesman was asked about the letter after a person who had read the manuscript related details of it to The Associated Press.

Manchester also says in the serialization, according to a person who has read it:

Agrees With Warren
He agrees with the theory of the Warren commission, which investigated the assassination, that Gov. John Connally of Texas, who was riding with Kennedy in the Dallas motorcade Nov. 22, 1963, was hit by the same bullet that went through Kennedy's body. Connally has expressed the opinion that he and Kennedy were hit by different bullets.

Newsman Charles Bartlett told Defense Secretary Robert S. McNamara he had heard from President Kennedy that he was to be secretary of state in the second term. Bartlett said today he did not care to comment.

Arthur M. Schlesinger, Jr., a former adviser to President Kennedy, wrote recently that Kennedy had decided in 1963 to replace Dean Rusk as secretary of state after the 1964 election. Manchester says that once Rusk had left, Robert F. Kennedy, then attorney general, would ask to be assistant secretary for inter-American affairs.

Expressed Appreciation
Schlesinger asked John Bailey, Democratic national chairman, if it was possible to deny the presidential nomination in 1968 to Johnson. Bailey said the result would be to lose the election.

A source close to the Kennedy family said that Mrs. Kennedy had written a letter to President Johnson after the assassination in which she expressed "appreciation for the considerable behavior he showed her."

In some respects the book paints an unfavorable picture of President Johnson," the source said. "But this did not come from Mrs. Kennedy, or Robert Kennedy. It came from some other sources and from the judgment of the author, which he is entitled to make."

Johnson Aide Has Surgery

AUSTIN, Tex. (AP) — President Johnson's new press secretary, George Christian, is to undergo back surgery today.

Christian, 40, said he was having the surgery for a longtime ailment while Bill D. Moyers, his predecessor, is available to fill in as press secretary for about three weeks.

Christian became press secretary earlier this month after Moyers announced he was leaving the White House staff Feb. 1 to become publisher of Newsday, a Long Island, N.Y., newspaper.

Rock 'n' Roll Creating Deafness?

PHOENIX, Ariz. (AP) — If today's teen-agers need hearing aids when they're 25, they have only themselves to blame, says Robert A. Larabell.

Their rock 'n' roll music is too loud and it's damaging their ears, the acoustics engineer said Wednesday.

In decibels, Larabell said it ranks right up there with riveting, drop forging and automobile assembling. And workers in

those industries are required to wear noise guards.

The quality of rock 'n' roll music draws no complaint from Larabell, president of an acoustics company. He objects only to its volume, particularly when it's amplified through batteries of loudspeakers in nightclubs with rows of listeners crowded in close.

Using standard industrial metering equipment, Larabell has measured the noise output

of a number of rock 'n' roll bands.

"A home at night, with the TV turned off and everybody asleep, and nobody snoring, will produce about 40 decibels," he told a reporter.

"A private office — 60 to 75 decibels. A general office, 70-75. 'Somebody shouting at you from a distance of three feet might make 80 decibels. Ability to communicate stops at about 85 decibels, and the most avid

television or radio fan won't turn the volume past 90 decibels."

Larabell said the Air Force and others have worked up exposure charts that show how much sound over what period of time may be damaging.

He said he measured a volume of 90 to 95 decibels 20 feet from a teen-age band. "By Air Force charts, this much sound over an exposure of 15 minutes definitely can be harmful."

5th Chinese A-Bomb Points H-Bomb Peril

Blast Creates More Tension In Soviet Ties

By The Associated Press
China has exploded another nuclear device and thrown yet another bomb into the rubble of Soviet-Chinese relations.

As much as any other one factor, atomic weaponry has contributed liberally to worsening relations between the two Communist giants and may yet be the element which makes the break complete and final.

With the latest explosion — Red China's fifth and its third this year — Peking issued a propaganda blast which said the success of these tests "is a heavy blow to U.S. imperialism and Soviet modern revisionism, which have been collaborating in a vain attempt to enforce their nuclear monopoly and sabotage the revolutionary struggles of all oppressed people and oppressed nations."

Soviet Nervous
With each Red Chinese explosion Soviet nervousness has increased. This explosion could be enough to push the Kremlin into a more active role in seeking peace in Vietnam, despite avowals from Moscow that the Soviet leaders will take no such initiative unless specifically asked by the North Vietnamese.

Moscow appears now to see in China's nuclear club membership a real threat of nuclear weapons spreading to other countries and of a world situation developing beyond the control of the two major nuclear powers.

"Break Monopoly"
Peking has vowed again and again to "break the nuclear monopoly" of the Soviets and the Americans, and has given the impression that it believes the more nations that get the bomb, the better. The official Peking People's Daily said recently that Red China "will never be party to the so-called nuclear nonproliferation treaty to deprive non-nuclear countries of their rights and injure the interests of the world's people."

As China grows more confident, Moscow grows more jittery. The danger is far closer to the U.S.S.R. than to the Western Hemisphere. And China, denied Soviet help since 1960 in the nuclear weapons field, grows more belligerent toward the Soviet leaders with each successful test.

VIETNAMESE PARATROOPERS jump from a U. S. Air Force C-130 transport in the first large scale combat jump by the South Vietnamese troops in nearly two years. Vietnamese headquarters said the paratroopers ran into no opposition when they jumped from a total of 33 planes — 13 U. S. Air Force transports and 20 C-47s of the South Vietnamese Air Force. (AP Wirephoto by radio from Saigon)

Bigger Tax Bite Beginning Jan. 1

WASHINGTON (AP) — The federal government will take a bigger bite of the weekly paycheck beginning next week to help pay for increased Social Security benefits, especially medical care for the elderly.

Social Security taxes will climb from this year's 4.2 percent rate to 4.4 percent on Jan. 1 and most of the increase will be used in the medicare program.

cal care program and the rest for regular Social Security benefits.

And there's more to come in the years ahead. Increases in the Social Security tax rate are already built into law through 1967 and any increased benefits voted by Congress could mean even higher taxes.

President Johnson has already made an across-the-board improvement in benefits as a major legislative goal for next year and has the support of both Democratic and Republican leaders.

Next year, \$33 of every maximum payment of \$300.40 will go for the medical care program.

Today's Chuckle

A real friend is one who will continue to talk to you over the back fence even though he knows he's missing his favorite television program.

Armed Services Chairman Urges 'Flatten Hanoi'

WASHINGTON (AP)—Chairman L. Mendel Rivers, of the House Armed Services Committee, says the United States should "flatten Hanoi if necessary (and) let world opinion go fly a kite."

His Senate counterpart, Chairman Richard B. Russell of the Armed Services Committee, says "the use of superior force is the only means by which they (the Communists) can be forced to the conference table."

Rivers, a South Carolina Democrat, said in a telephone interview Wednesday night from Charleston, S.C., "We should use to the fullest the potential of our great air power" upon North Vietnam.

He said the lack of full use of such power "is why these people think we're kidding."

He derided reports of civilian casualties in North Vietnam and asked "what about these (American) fliers that have been shot down on these missions of indecision? Nobody seems to be worried about these fellows."

Rivers referred to bombings

Upper Peninsula, Area Take Storm In Stride

Escanaba, Delta County and the Upper Peninsula took winter's latest blast in stride today as activities moved back toward "normal" by noon.

All highways in the Upper Peninsula and the northern half of lower Michigan were reported snow covered and slippery this morning, but traffic was moving with no blockages reported anywhere.

City of Escanaba plows completed work on city streets this morning and the Delta County Road Commission indicated its cleanup work would be finished this afternoon.

The storm, which began about noon Wednesday, dumped four inches of snow in Escanaba and added varying amounts throughout most of the rest of Michigan.

Depth 40 inches
The Marquette County Airport reported 11 inches had fallen leaving a total of 40

inches on the ground, the greatest snow depth in the United States. With a snow still falling this morning, Marquette had charged 7.8 inches. Snowfall in Marquette to date was reported as the heaviest in 10 years.

Sault Ste. Marie recorded about four inches and Calumet two inches.

State Police reported only one minor traffic accident Wednesday, not involving injury, in Delta County. Schools in the area remained in session today.

North Central Airlines, which cancelled its northern flight to Escanaba and Marquette at Green Bay last night, said that runways were being cleared at the Escanaba airport this morning and that the 12:08 p. m. flight from lower Michigan via Green Bay was expected, as usual. The cancellation at

Green Bay last night also resulted in cancellation of the southbound flight this morning.

Detroit Roads Wet
The State Highway Dept. reported roads in the Detroit metropolitan area wet with salt-ing operations going on to prevent freezing. Southern lower Michigan freeways were reported slippery in spots with the passing lane in some areas snow covered.

Storm Moves East
Colder temperatures with light snow or snow flurries were forecast for this afternoon and tonight for the Escanaba area by the U. S. Weather Bureau. Temperatures are expected to fall to a low of about five degrees tonight.

Friday's forecast calls for partly cloudy skies and continuing cold with a slight warming trend predicted for Saturday. Precipitation probabilities

Radioactivity Feared By Japs As Aftermath

TOKYO (AP) — Red China's fifth nuclear explosion, apparently its biggest, indicates a big stride toward a hydrogen weapon, Japanese experts said today.

There was some speculation the device exploded Wednesday was a small hydrogen bomb, or a reinforced nuclear weapon. Although the official Chinese announcement gave no details of the size and type of the device, Japanese newspapers had no doubt it contained thermonuclear material.

They noted the Chinese announcement said the test raised China's nuclear knowledge "to a new level."

Some predicted a grim new year's present if the test's radioactive cloud drifts over Japan as expected Saturday or Sunday. Snow, which could bring down contaminated particles from the atmosphere, is forecast for much of Japan on New Year's Day.

H-Bomb Imminent
"At any rate, we must pay attention to the fact that real production of a hydrogen bomb (by China) is now imminent and only a matter of time," the newspaper Sankei said.

Sankei said Japanese defense agency officials did not believe the blast was a full-fledged hydrogen bomb because of the yield — estimated by U.S. intelligence at the equivalent of 200,000 tons (200 kilotons) of TNT.

Sankei said Japanese officials believe an H-bomb would have produced a yield near to 1,000 kilotons. But the newspaper Asahi noted that the United States set off a hydrogen bomb underground in Nevada in 1952 in the 100-kiloton range.

In Bad Weather
Another Japanese newspaper, Mainichi, said the fifth test was believed to have increased the amount of thermonuclear material in the Chinese bomb. Conducted in bad weather, the test demonstrated the stepped-up pitch in China's nuclear development, the newspaper said.

It added it will be some time, however, before China is able to reduce a hydrogen device to a size capable of being delivered by a missile.

Most Japanese estimates were based on a study of microbarometer readings at the Japanese Meteorological Agency. Although the readings were not high, one expert said they did not exclude the possibility the blast could have been a small hydrogen bomb.

Official U.S. reaction was scant. The U.S. Atomic Energy Commission said only that the Chinese test had a yield of "several hundred" kilotons.

Study Strikes

WASHINGTON (AP) — Henry B. Nabors, city manager of Grand Rapids, Mich., Wednesday was named to a nine-member commission by the AFL-CIO International Association of Fire Fighters to make a study on whether firemen should resort to strikes for better wages or hours.

Shocked Shrimp

PASCAGOULA, Miss. (AP) — Shrimp in the Gulf of Mexico are now being shocked into fishermen's nets.

A device developed by the Department of the Interior's fishery laboratory here sends an electrical shock just ahead of the trawl which causes the shrimp to "jump" from the mud into the nets.

Nine Traffic Deaths:

Holidays Bring Highway Hazard

Delta County's traffic death toll is nine so far this year and there are appeals from law officers for careful driving through the coming holiday weekend to keep the casualty list from rising.

One of the nine deaths was in the City of Escanaba. The others were on state and county roads.

Escanaba Police Chief Harold Finman, State Police Sgt. Wilbert Treichel and Sheriff Cully Johnson joined in an appeal to motorists to drive with caution through the New Year's holiday weekend that will close the year.

Escanaba's traffic toll was 2 in 1964, 2 in 1965 and 1 so far this year, Chief Finman reports.

Although none of the local law enforcement agencies will have additional complement this year to patrol highways, there will be intensified patrols throughout the city and county as part of the safety effort.

From Lansing, State Police Director Frederick S. Davids pointed out that Michigan's 1966 traffic toll has broken the annual record and urged continued caution over the weekend.

Davids said Michigan motorists held this year's Christmas weekend traffic deaths 25 per cent below the 1965 loss. The 28 Christmas weekend deaths were nine fewer than 37 for the same period last year. The toll for last New Year's weekend was 33.

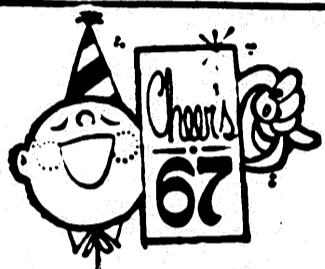

Davids said Michigan traffic deaths for 1966 totaled 2,211 through Dec. 27. This is 36 more than the previous all-time mark of 2,175 set in 1937. Last year's toll was 2,129.

Added hours of darkness, frequent bad weather and road conditions, drinking associated with New Year celebrations, inattention and fatigue were cited by Davids as hazardous factors for this time of year.

Michigan Farmers Up Fall Plantings

LANSING (AP)—Michigan farmers have planted 47 per cent more acres of winter wheat this year than one year ago, and production is expected to be up 38 per cent, the federal-state Crop Reporting Service says.

The service forecast production of 41.9 million bushels from 1.1 million acres. Michigan farmers planted 222,000 acres of rye this fall, 8 per cent more than one year ago. The service said in the last five years, about one-fifth of the seeded acreage has been harvested for grain.

MARLENE MCGOVERN, in 1963 a teacher at Webster School, examines model of C&NW iron ore docks in Escanaba with members of her fifth grade class. A report on the dock building project and its application to the learning process was published in the December issue of "The Instructor." (Daily Press Photo)

Journal Features School Project

An Escanaba Area elementary school teacher—Mrs. William (Marlene) McGovern, 513 S. 9th St.—has had a report on a classroom project published by "The Instructor," a national journal for elementary educators.

The story, "Steel and Where It Begins," evolved from a classroom study of the Chicago & North Western iron ore docks in Escanaba in 1963 while Mrs. McGovern was

teaching fifth grade at Webster School. She now teaches fifth grade at Lamm School.

A graduate of Northern Michigan University, Mrs. McGovern took her class on a tour of the docks during Escanaba's ore centennial in an effort to relate areas of study with local subjects.

In the December issue of the magazine, the editors in a preface ask other teachers:

"Do you localize social studies by tying in with centennial celebrations or the anniversaries of important businesses and industries in or near your large or small community?"

"By taking advantage of the here and now, children can develop techniques which may be applied to later studies of another country or event."

"Four interdisciplinary areas (history, geography, sociology and economics) are evident in this project."

In the project, the class studied the ore docks and made a working model, harbor conditions, season, jobs and the shipping season. Students also explored through written and oral reports the iron ore mining process in the Upper Peninsula, uses of ore, location of iron ore deposits in the world, basic ingredients for making steel, iron products, etc.

Mrs. McGovern points out that modern math was also used in construction of the dock model.

The story was published on pages 82 and 83 of the issue.

Four Hurt When Autos Collide

Four persons suffered minor injuries in a traffic accident in the 1000 block, N. 21st St., at 8:56 p.m. Wednesday, Escanaba police report. None of the injuries appeared to be serious.

The drivers were Raymond L. Peterson, 25, of 216 N. 21st St., and Ronald A. Delorenzo of Rocky River, Ohio. Peterson was summoned to court for driving too fast for conditions. Peterson suffered a back injury and three men in the Delorenzo car, Paul Viso, Donald R. Bruce and Paul Cornish, were bruised.

Homeowners in the United States spend about \$360 million a year replacing roofs on their houses, records reveal.

Briefly Told

Application for a marriage license was made at the County Clerk's office by John Adam Jekewicz and Julie K. Schimpf, both of Sheboygan, Wis.

Escanaba police have issued a traffic court summons to W. W. Tourangeau, Bark River Rte. 1, for failing to stop in the assured clear distance.

The Barbershoppers will meet tonight at 8:55 at the Bishop Noa Home to present their holiday concert. All members are urgently requested to be present.

An immunization clinic will be held by the Health Department at the Delta County Building on Friday from 2 to 4 p.m. Measles vaccine will be given all children 1 to 14 years of age and other shots will be available to adults.

Fred J. King, 60, of 1111 6th Ave. S., charged with driving under the influence of intoxicants, had his hearing continued in Municipal Court. He was arrested by Escanaba police at 10:50 p.m. Thursday, Dec. 22.

Robert M. Sebeck, 17, of 1402 Michigan Ave., Gladstone, pleaded guilty to a charge of driving while under the influence of intoxicants and paid a fine of \$50 and costs of \$5 in Municipal Court on Dec. 23. He was arrested by Escanaba police at 1:08 a.m. on Dec. 21.

Edward Garcia, 24, of 1801 18th Ave. N., charged with cashing a bad check for \$100 at the Red Owl Store in Escanaba, was sentenced in Municipal Court on Wednesday to serve 30 days in the Delta County jail. Should he fail to make restitution he must serve an additional 30 days. He was arrested by Escanaba police.

Hospital

Janice King, 9, daughter of Mr. and Mrs. Henry King, 636 N. 20th St., is a patient at St. Joseph's-Lloyd Hospital in Menominee. Her room is 340. She underwent eye surgery at 8 a.m. today.

Home Construction Slumps

By DAVE SMITH
NEW YORK (AP)—For builders, 1966 was the best of times and the worst of times. The construction industry as a whole set records, while one sector—home-building—entered its worst slump in two decades.

The U.S. Commerce Department estimated outlays for all construction at a record \$75.9 billion, a sizable gain over the \$68.3 billion spent in 1965.

But privately financed housing construction, expected to jump from 1965's 1,425,000 units to 1,515,000 in 1966, plummeted instead. The year's total of 1.2 million housing starts was that low only once before since World War II—in the 1957 recession.

And in October, the seasonally adjusted rate of housing starts dropped to 848,000, a 20-year low. The previous lowest annual rate of starts since World War II was 967,000, in November 1964.

The 1966 growth in dollar volume was larger than expected, despite the housing sag, partly because of a 33 per cent expansion in industrial construction, but also because of climbing building costs, economists said.

For 1967, they predict a slight boost to \$76.1 billion in dollar volume.

Romney-Milliken To Take Official Oaths Saturday

LANSING (AP)—Gov. George Romney will take his official oath of office for his third term at a private family ceremony at his Bloomfield Hills home Saturday, the executive office has announced.

The oath will be administered at 8 p.m. by Wayne County Circuit Judge Thomas E. Brennan, a justice-elect to the Michigan Supreme Court.

Public inaugural ceremonies will be held Monday, Jan. 2, in Lansing.

The Michigan Constitution specifies that terms of office begin at noon on the first day of January.

Lt. Gov. William G. Milliken is scheduled to take his official oath of office Saturday at his Traverse City home before Circuit Judge William Peterson.

volume but cuts in physical volume in building. In all, considering government efforts to bolster the housing market and cutbacks in public building, the Commerce Department says, "both private and public outlays will level off in the coming year."

The home-building recession was created, economists said, as a somewhat ironic by-product of a generally booming U.S. economy. Savings and loan firms, which normally underwrite about one-third of the nation's building mortgages, found safer investments elsewhere than among the smaller, higher-risk builders who normally form a large part of their clientele.

Scores of smaller builders went out of business as credit

lightened on them, and the National Association of Home Builders estimated late in the year that one of every six contractors in the nation would be engaged in other work before the tight money situation eased in 1967.

Steel Output Up From 1965

NEW YORK (AP)—Steel production declined last week 2.3 per cent to 2,377,000 tons from 2,431,000 the previous week the American Iron and Steel Institute reports.

Output for the year to date totaled 131,821,000 tons, up 2.2 per cent from 129,006,000 in the like period of 1965.

Marines To Bring Toys For Indians

It will be Christmas all over for the Indian children of Han-nahville one of these days.

The "Toys For Tots" campaign at Christmas was started by a Marine unit in Los Angeles in 1948. It has since expanded to include over 200 units and together they collect more than three million toys each year.

Toys collected at Glenview are distributed to Chicago area orphanages, settlement homes and children's homes.

"We had a very successful drive again this year and there are toys left over," Carr said. "We would like very much to bring some to Han-nahville."

A year ago, the Marine Detachment flew a large C-119 transport plane into the Escanaba Municipal Airport loaded with 30 cartons of toys for Han-nahville Indians. The plane was met by Indian families for the pickup.

Carr said the Marine unit is currently trying to make arrangements for transporting the toys to Escanaba.

"When we'll be able to come will depend, of course, on weather and aircraft availa-

ble," he said. The indication was, however, that it would be in the near future.

Guide To Winter Sports Fun

Michigan ski resort owners are ready for a big winter season in 1966-67 and most think they'll have it, even if the weather doesn't cooperate.

About 48 per cent of the state's 81 winter areas have installed new and improved snow-making equipment and won't be dependent entirely on snowfall for a successful season, according to Jerry E. Fisher, Automobile Club of Michigan touring manager.

There are 19 more slopes and nine more lifts ranging from T-bars to triple chairlifts waiting for Michigan skiers this season.

Ski enthusiasts this season will spend an estimated \$25 million in Michigan. Lodges and associated businesses such as motels, restaurants and specialty clothing stores are ready with bigger and better facilities.

At least two resorts have

added sauna baths and three others now have heated swimming pools. Thirty-seven areas offer night skiing, two more than last year.

Ski resorts and equipment in the Upper Peninsula:

1—Mont Ripley: Houghton-Hancock. Open slopes, 2,000 ft. 1 T-bar; rope tows.

2—Porcupine Mountain: 17 miles west of Ontonagon. 6 slopes, 1,800-4,300 ft. Double T-bar lift; 4 tows. 1 1/2-mile cross-country run.

3—Mt. Zion: Ironwood. Four 1,200-ft. slopes; 2 downhill and 2 alpine. 1 tow with breakoff. Tobogganing. Open Tues., Thurs. nights, weekends.

4—Big Powderhorn: 3 miles northwest of Bessemer and 4 miles northeast of Ironwood on US-2 14 slopes, longest 1 mile; beginner, novice, intermediate and expert trails. 2 double chair lifts. 1 T-bar and 3 rope tows.

5—Indianhead Mountain: 9 miles east of Ironwood, north of US-2 between Bessemer and Wakefield. 9 runs; 3 slopes, 3,000-5,000 ft. Triple chair lift, double chair lift, 2 T-bars; 2 rope tows. Snow making equipment.

In Service

Kelly Ray of Escanaba, who enlisted in the U. S. Marines after finishing two years at Bay de Noc Community College, has completed basic training at San Diego, Calif., and was promoted to private first class. He spent a 30-day leave with his parents, Mr. and Mrs. Harry Ray of 500 Ludington St., and is now transferred to Camp Lejeune, N. C., where he is attending IBM school.

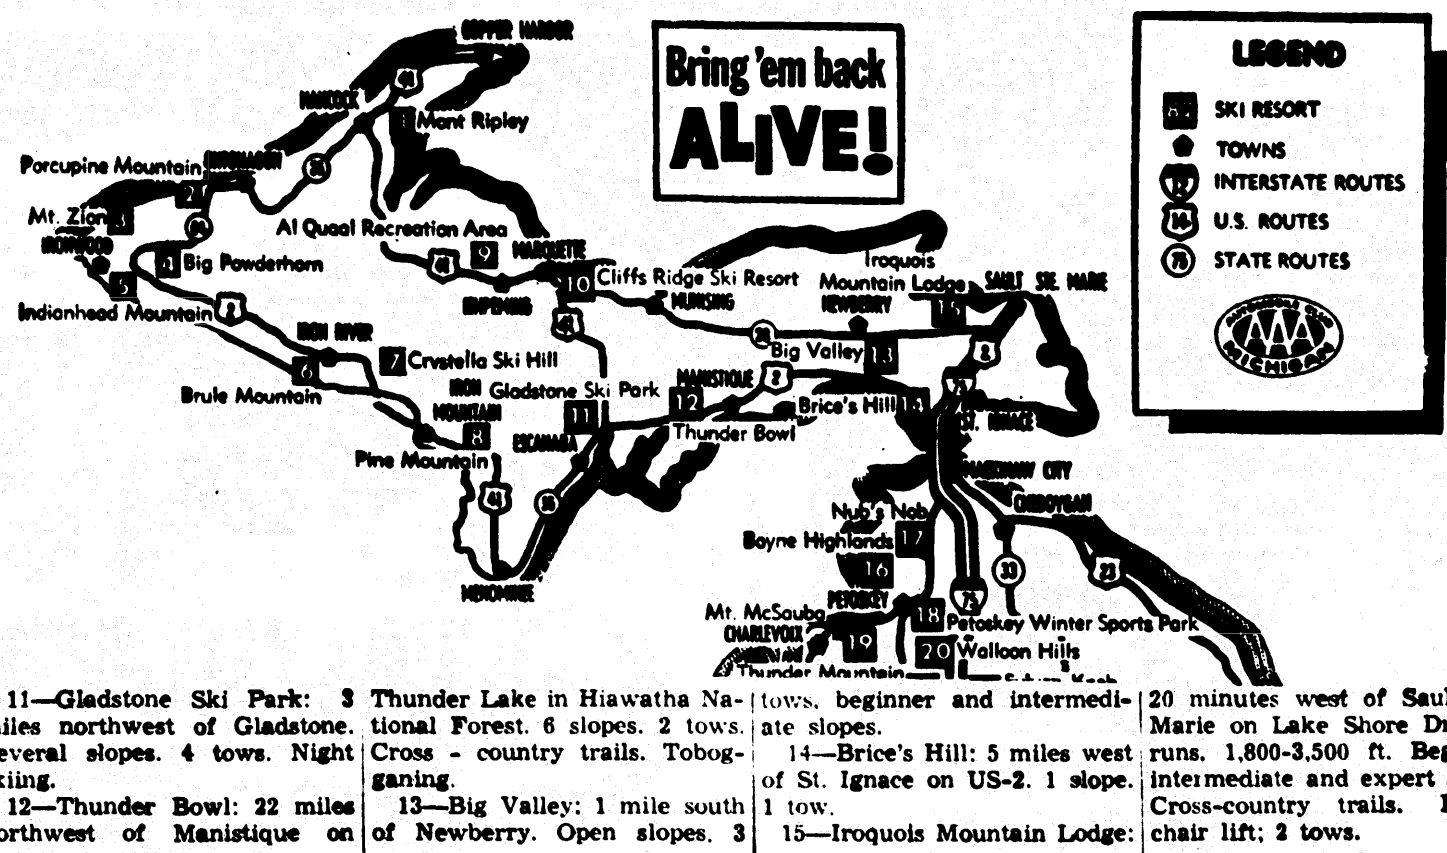

6—Brule Mountain: 7 miles southwest of Iron River, between M-189 and M-73 along the Brule River. 6 slopes, 4,000 ft. T-bar lift; 4 tows; chair lift. Cross-country trails. Snow making equipment.

7—Crystal Ski Hill: At Crystal Falls, off US-3; several slopes. 2 tows. Junior jump.

8—Pine Mountain: At Iron Mountain. 12 slopes and trails. 2 double chair lifts; 8 tows. Snow making and grooming equipment. World's highest artificial ski jump.

9—Al Quaal Recreation Area: At Ishpeming. 3 slopes; 450-1,000 ft. 3 tows; junior jumping hills. Cross-country course. Toboggan run. Night skiing. Snowmobile trails.

10—Cliffs Ridge Ski Resort: 3 miles northwest of Gladstone. Several slopes. 4 tows. Night skiing.

Chicago secretary Ann Larsen tests the controls for built-in equipment performing such tasks as taking dictation, recording conferences, tapping phone calls to the office staff. Price tag: \$14,000.

Big Car Inventories Don't Worry Dealers

DETROIT (AP) — New and used car lots across the nation bulged with a heavy inventory today but few of the nation's auto dealers appeared concerned.

"We have learned from experience that you can not compete with Santa Claus and so we expected sales to slow down a bit in both new and used cars from mid-December on," explained one dealer source.

A survey of new car supplies showed about 1,293,000 were in dealer hands or enroute to them as of Dec. 15. This represented a 45-day supply at current selling rates.

A year ago, the dealers had 1,223,000 cars on hand and in 1964 — when the industry was just getting into full production

after a series of strikes — the figure was 893,000.

Dealer sources expressed satisfaction that auto firms had slowed their production rate down in December and January to keep more in tempo with sales rates and to avoid building a tremendous, unwieldy inventory.

Expectations were that the calendar year would end with total sales of about 9 million new cars in the U.S. market, including a record-breaking 640,000 imports.

The nation's 31,000 franchised used car dealers were expected to almost duplicate that figure with about 9.1 million used car sales forecast for 1966. That would be the fifth highest total on record, although it would trail 1965's total of 9.7 million and the record 10.1 million of 1965.

Loren Helmhout, used car manager for Lincoln-Mercury Division of Ford Motor Co., said November and early December sales figures showed a little softening over 1965's performance, but he added:

"Sure, it is off a bit, but then it always is down at this time of year. This year it may wind up with figures behind those of 1965 but I do not see anything abnormal in the sales picture."

4,000 Homeless In Chile Quake

SANTIAGO, Chile (AP) — Earth tremors continued to shake northern Chile during the night, and there were warnings of a possible tidal wave if an undersea volcano continued erupting 25 miles off shore.

The volcano spit sheets of fire from the ocean bottom Wednesday about the same time that a mighty earthquake raked across 1,000 miles of the copper-rich coastal area.

The quake destroyed much of the old nitrate port of Talati, where three persons were reported killed so far and two others missing. Dozens were injured and an estimated 4,000 persons were left homeless in the provinces of Antofagasta, Atacama and Tarapaca. Three million persons live in the area.

Residents of Talati, which has a population of 10,000, said huge flames spurted from the ocean depths when the quake struck at 4:18 a.m. Old, one-story structures of mud bricks and wood collapsed in the town amid big clouds of dust, and thousands fled toward the neighboring hills with the shaking earth slipping beneath their feet.

The first quake registered 8 on a scale of 12 and light tremors continued Wednesday night. The navy warned that if the volcano continued erupting, a tidal wave could flood Talati and other coastal areas.

The quake was felt in Santiago, the capital 600 miles south of the epicenter, but no damage was reported.

The \$700-million copper installations of the U.S. Anaconda Co. in Atacama and Antofagasta Provinces also were reported undamaged.

Man Claims He Invented Turn Signal, Sues GM

INDIANAPOLIS, Ind. (AP) — A New Castle, Ind., man has filed suit against General Motors Corp. in U.S. District Court here charging the auto firm "wrongly appropriated" his idea for automatic turn signals which he said he invented when he was a 17-year-old high school student.

In his suit John E. Bussell, 54, a canning factory worker when he's not inventing, said GM adopted the turn signal for cars in 1930, but that he invented and designed an automatic turn signal in December, 1929. Bussell alleged he submitted his signal plans to GM's Guide Lamp Division, but was told it would not be considered unless it was patented.

Bussell asked that GM be ordered to account for all profits it has gained from the turn signals.

Bussell's attorney said there is a reason for the 36-year delay in filing the suit, but he declined to say what it was.

Bandit Gets \$800

DETROIT (AP) — A gunman held up a West Side branch of the National Bank of Detroit Wednesday and fled on foot with \$800.

Brown Spares 4 Murderers

SACRAMENTO, Calif. (AP) — Gov. Edmund G. Brown, in one of his last official acts Wednesday, spared the lives of four murderers in the death row at San Quentin Prison.

Brown, whose term ends Jan. 1, also made eight others eligible for parole.

Courts, or Gov.-elect Ronald Reagan, who favors capital punishment, still may spare some of the 60 now remaining in death row. The last execution in the green-walled gas chamber was almost four years ago. Court decisions dealing with the rights of accused persons have stalled executions since then.

Brown, who opposes capital punishment, released the list of commutations Wednesday. They were dated Dec. 22.

The four men he saved from the gas chamber were given sentences of life in prison without the possibility of parole.

Jury Announced For January Term Of Circuit Court

List of prospective jurors drawn for the term of Circuit Court for Delta County beginning Monday, Jan. 9, was announced today by Clerk William E. Butler.

Jurors have been ordered to report at 9 a.m. Wednesday, Jan. 11, to the Circuit Courtroom in the Delta County building.

Selected were: Amy B. Moberg, Carl Westerberg, L. M. Fleming, Fred Saykly, Margaret Peltin, William Burnell, Leona Morey, Viole Bureau, Joy Fleetwood, Emil L'Haur-eux, William Plinsky, Vincent Damrosch, Alva Kositzky and Raymond Coussineau, all of Escanaba, and Marcella Stradski, Frances Stupak, Shirley J. Brock, Florence E. Nyberg, Elvira Swanson, Helen M. Strom, Ronald Anderson, and Mildred Orton of Gladstone.

Chosen from townships were: Marion Selander, Baldwin; Gail Henson, Bark River; Elmer Jader, Bay de Noc; Lawrence Bunno, Brampton; Gladys Barron, Cornell; Urban H. Hebert, Emig; Omar La-Bombard, Escanaba; Roy Dalgard, Fairbanks; Rose B. Gud-wer, Ford River; Carroll C. Tatrow, Garden; Richard La-Chapelle, Maple Ridge; Lelia Mosier, Masonville; Marie L. Gouin, Nahma, and Edward Wigand, Wells.

Phone Traffic Requires More Microwave Relays

Michigan Bell Telephone Co. is building the tower and microwave relay station pictured here on a ridge west of LaBranche in Menominee County on the south side of Menominee County Road 69.

The tower is an indication of the growing telephonic communications load in the Upper Peninsula and of the need for more equipment to handle it.

The tower, 300 feet high, will not be finished and equipped with its cornucopia type dishes and ready for operation until late next summer, says Harold Meiers of the Escanaba area staff of Michigan Bell.

The tower is a unit in a new microwave relay route from Iron Mountain to St. Ignace across the Upper Peninsula. The LaBranche installation is all new, but there is also a tower in the Blaney-Cooks area.

Michigan Bell is also improving the microwave relay station at Perkins with provision of a new station building.

The relay towers transmit electronic communications by wireless method. The message load which has necessitated Michigan Bell's enlargement of facilities is partly civilian—with the after 9 p.m. toll traffic contributing importantly to it—and partly military.

The towers are adaptable for use as television signal relays but there is no current need for such usage.

Mr. and Mrs. Tony Machalk and daughter Lynn are visiting in Edenyville, North Carolina with relatives.

G. R. Matthews Dies Wednesday

MANISTIQUE — George R. Matthews, 79, of 211 Lake St. died suddenly Wednesday at 6 p.m. at his home.

Mr. Matthews was born May 22, 1887, in Huron, S.D., and came to Manistique in 1917 from Wisconsin. He had lived here ever since.

He was married to Julia Pataska in Nekosha, Wis., Oct. 28, 1908.

Mr. Matthews was a member of St. Francis de Sales Church and Knights of Columbus as an honorary life member. He was a charter member of the Manistique Council which was formed in 1919. He was a past district deputy of the Manistique council, past first vice president of the Escanaba Deacons, past president of St. Francis de Sales Holy Name Society and co-chairman of the Ushers Club of the Church.

In recent years he was owner and operator of National Specialty Sales in Manistique.

He leaves his wife, a son, John, of Manistique; two daughters, Mrs. William (Helen) Nault of LaGrange, Ill., and Mrs. Dorothy Conlin of Manistique; 12 grandchildren and 12 great grandchildren.

Friends may call at the Messier - Broullire Funeral Home beginning at 2 p.m. Friday. Liturgical prayers will be recited at 7:30 p.m. Friday.

The Knights of Columbus Rosary will be said at 8 p.m. Friday. Solmen funeral services will be Saturday at 10 a.m. at St. Francis de Sales Church with burial in Fairview Cemetery.

Peking Orders 'Hate Soviet' Drive In Army

MOSCOW (AP) — Peking's leaders have ordered an all-out hate-Soviet campaign in the Chinese army, the Soviet defense ministry charged today.

The defense ministry newspaper Red Star said "everything has been placed at the service of anti-Soviet propaganda." The article, spread across the bottom of two pages, was clearly aimed at warning Soviet military personnel of possible danger from China.

"To cultivate hatred for the Soviet Union among servicemen," the article said, "Chinese propaganda is trying in every way to persuade army soldiers and commanders that the Soviet Union and American imperialism are 'one and the same thing'."

Red China and the Soviet Union share a 4,150-mile border, much of its disputed territory. Chinese Communists party Chairman Mao Tse-tung has claimed 580,000 square miles of Soviet territory belongs to China.

New Treasurer

MONROE (AP) — Thurman Liedel, 53, has been appointed Monroe city treasurer, succeeding Hervis Cousina, 60, who is retiring Saturday.

Food From Oil New Scientific Prospect

WASHINGTON (AP) — Promising prospects for a major new protein food made by mixing living bacteria with crude oil products were reported by scientists here.

A team working on the project said it could be a significant food source for developing countries which might be competitive in price with skim milk powder.

For folks who could be squeamish about eating food derived with the help of bacteria, the researchers pointed to yogurt, vinegar, cheese, sauerkraut, cured meats, soy sauce and other foods already in this category.

May Use Yeast Living yeasts might also be used instead of the bacteria in producing the protein, Dr. John G. McNab of the Esso Research and Engineering Co., New York, said.

McNab and Rey said that a number of technical and economic problems remain to be solved but "we are confident that all of these problems can be solved and that single cell protein can represent a major new source of protein," possibly within the next decade.

Yule Sales Set A New Record

NEW YORK (AP) — Christmas retail sales exceeded the record 1965 level by about 3 to 5 per cent.

But, The Wall Street Journal reported Wednesday, they generally failed to live up to the expectations of most merchants.

The gain in 1965 over 1964 was 6 to 7 per cent.

Retailers cited fear of a tax increase in 1967 and tight money as factors contributing to the so-so season.

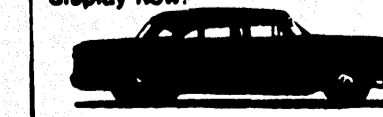

Major home appliances, color television sets and other high-cost items were particularly hard hit.

Like a doctor's prescription... for comfort.

Chicken Research Ending

Chatham Stocking Turkeys

When the last chickens are taken from Michigan State University's agricultural experiment station at Chatham in Alger county Feb. 7, it will mark an end of an era in Michigan chicken research.

Turkeys will replace chickens at Chatham as scientists seek to learn answers to the problem of securing turkey hatching eggs during the summer months.

MSU chicken research, starting with poultry housing experiments, began in Chatham when the four new experimental houses were constructed in 1957. During the near decade that followed, experiments directed by Dr. Lloyd R. Champion, professor of poultry science, and Dr. Howard Zindel, chairman of MSU's Poultry Science Department, resulted in several important findings.

Housing research at the station, for example, showed that laying hens did not need 3 to 3½ square feet of space per bird as had been recommended for many decades. MSU scientists found that the birds could get along nearly as well with only one-third to one-half that space. This finding has offered poultrymen an opportunity to raise more chickens per house and maximize their income per unit of floor space.

Another housing project just completed compared the advantages of "constant" and "environmental" temperatures in a poultry house. Under "constant" temperature conditions, the temperature in the poultry house is kept about the same throughout the year. With "environmental" temperatures, the temperature in the house is allowed to vary with outside temperatures.

This project will not be fully completed until the end of January, but preliminary data indicates important economic advantages to maintaining "constant" temperatures.

In still another study, MSU poultry scientists tested the effect of a single oral treatment of tranquilizers on pullets that had to be transferred long distances to sites of permanent housing.

Some of the studies in Chatham have been aimed at helping poultrymen manage and market their eggs. One experiment showed that 80 to 90 per cent of the eggs produced by chickens are laid prior to 1 p.m. As a result of this finding, most poultrymen gather eggs only once in late afternoon after making several egg gatherings in the morning.

In marketing, research demonstrated that an "Honest George" system of merchandising the eggs on the farm can be very successful. With this system, customers select their own cartoned eggs from a refrigerated display case, pay for their purchases (using an open cash box), and sign a register with their name, date and amount of purchase. This method allows poultrymen to sell many of their eggs on the farm while keeping the "store keeping" chore to a minimum.

Final figures for newsprint would show a production increase of nine per cent, and of more than that for paperboard. Kraft paper output rose by upwards of 8 per cent.

Canada's exports of wood pulp were up 8 per cent in 1966 over 1965.

Fowler said capital expenditures in the pulp and paper industry also were at record levels in 1966. They are estimated to have exceeded \$500 million.

Women's Activities

Calvary Church Young People Meet Friday

An evening of Christian fellowship is planned for college and career age young people at the Calvary Baptist Church Friday, Dec. 30, starting at 8 P. M.

The meeting is planned to take advantage of the opportunity of getting together the college students who are home for the holidays.

Young people from neighboring churches are also invited for the evening of friendship, singing and refreshments. Devotions will be led by Wally Carlson.

Hermansville

Children of the area and John St. Juliana Jr., with snow equipment have cleared a large area at the Hermansville Lake for skating and the rink is a popular place for the children during the vacation.

Church services at St. Mary's Church, Hermansville, on New Years Day will be at 8:30 and 11:30 a.m.

Mr. and Mrs. Charles Kregalka of Milwaukee visited with her mother, Mrs. Verna Kiechura, over the Christmas holidays.

Miss Margie Phillips of Elgin, Ill., is visiting with her mother, Mrs. Mae Phillips.

Edward Driftke and family of Chicago spent the weekend with Mr. and Mrs. Sven Anderson.

Mr. and Mrs. George LaCourse and family have returned to Detroit after visiting with her mother, Mrs. Harry Demsky, in Powers and with relatives in Hermansville.

Gary Johnson returned home after being a patient in the Memorial Hospital, Iron Mountain, the last six weeks.

William Polazzo of Elgin, Ill., is visiting with his parents, Mr. and Mrs. Lindo Polazzo.

Mr. and Mrs. Ronald Pletsch and family of Rock Island, Ill., are visiting with his parents, Mr. and Mrs. Leo Pletsch, in Powers and with her parents, Mr. and Mrs. George Earle, of Muskegon.

Miss Anne Floriano is visiting in Wauwatosa, Wis., with her aunt, Miss Gelinda Vesceles.

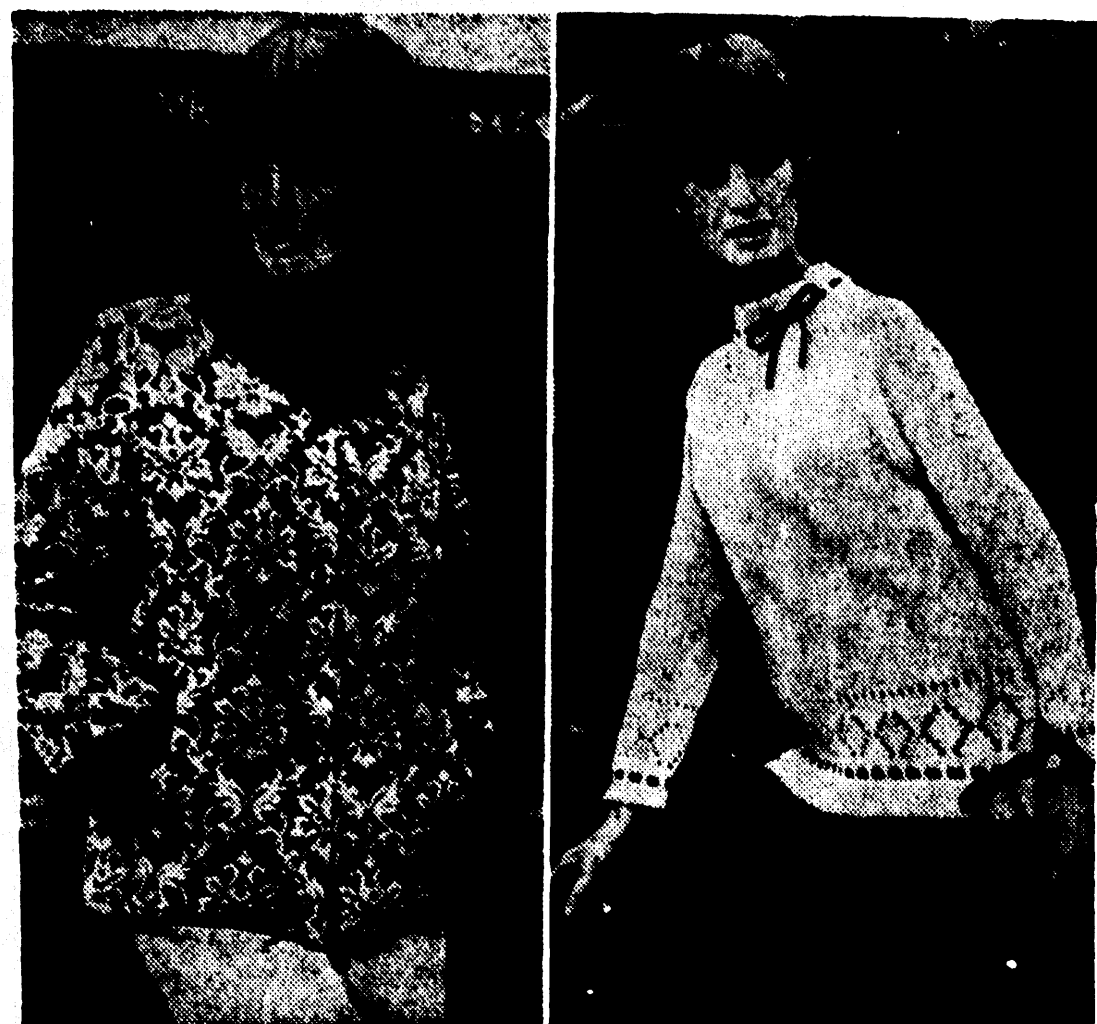

College students home visiting their parents include Robert Callaro and Allen Marana, Northern Michigan University; Charles Lungenhausen, Gary Johnson and Marty Smith, students at Michigan Tech.

Mrs. Sophie Andrews is visiting this week in Wrightstown, Wis., with her son-in-law and daughter, Mr. and Mrs. Raymond Wells, and family.

Justin Pipkorn of Endicott, N.Y., visited with his parents, Mr. and Mrs. Elmer J. Pipkorn. After visiting his parents here, he left for his new assignment at Los Angeles, Calif.

Mr. and Mrs. Eugene Stock are Jr., and family of Port Washington visited with her parents, Mr. and Mrs. Bill Nelson in Powers and with his parents, Mr. and Mrs. Eugene Stocker Sr. in Hermansville.

Visitors at the home of Mr. and Mrs. Lindo Sartori included Mr. and Mrs. Rodney Forsyth of Janesville, Wis., and Mr. and Mrs. James Champine of Warren, Mich.

TAPESTRY JACKET (left) is what a pretty girl would wear—especially one who no longer wants the way-out look. The rolled knit collar and cuffs make for added warmth. It's worn with cowboy style pants. On a chilly evening before the fire the outfit (right) has the ideal touch—casual, warm and feminine. The be-ribboned pullover with lacy stretch trim comes in flattering light and bright shades. It's worn with side-zipped stretch pants, tapered and proportioned for perfect fit.

Nahma

The St. Ann Altar Society of St. Andrews Church will meet Tuesday, Jan. 3, at 8 p. m. at the clubhouse.

Mr. and Mrs. Harry DeRosier returned home Monday after spending Christmas at the home of their daughter and son-in-law, Mr. and Mrs. George Girard of Marquette.

Joanie Sefcik of Anderson, Ind., arrived Thursday to spend the week with her parents, Mr. and Mrs. Joe Sefcik.

Herbert Blowers of Anderson, Ind., is spending a week's vacation with his family here. Paul Thibault of Saline, Mich., is here to spend the holidays with his parents, Mr. and Mrs. Victor Thibault.

Mr. and Mrs. William Rogers traveled to Milwaukee to spend Christmas with their children.

Mr. and Mrs. Joe Pilon of Anderson, Ind., are here for a week's vacation.

Mr. and Mrs. Clinton Gereau and Mary Gereau of Green Bay spent Christmas with their parents, Mr. and Mrs. Rudie Gereau.

Mr. and Mrs. Victor Thibault and son Paul spent Monday at the home of their daughter and son-in-law, Mr. and Mrs. William Lawrence of Quinnesec.

Susan Miron of Milwaukee spent the Christmas weekend at the home of her parents, Mr. and Mrs. Romeo Miron.

Mr. and Mrs. Ivan Schafer and son Ricky have returned after spending Christmas in Battle Creek at the home of their daughter and son-in-law, Mr. and Mrs. Bernard Newhouse.

Rose Ann Sargent, student at Eastern Michigan University, is spending her Christmas vacation at the home of her parents, Mr. and Mrs. Henry Sargent.

HINTS FROM Heloise

By HELOISE CRUSE

years or three babies . . .

"Bessie"

Dear Heloise:

This is the best way I have found to wash and shape those big, thick, loosely woven sweaters that are so fashionable nowadays:

I used to wash as usual according to the instructions, but they always stretched from the weight of the water. So I have learned to squeeze them gently and then roll them in a heavy bath towel to take out excess water.

I then toss the sweater in the air and catch it 20 or 30 times. This fluffs the yarn and puts the stitches back in place.

You may then shape the sweater on a towel to dry. Your sweater will look like it is brand new. It's absolutely beautiful.

Ruth Green

Now Folks, don't you dare laugh at our dear Ruth.

She's found a good answer to those loose-knit sweaters. My daughter has one. I have washed it often and finally tried Ruth's method. Sure enough, by tossing it lightly and catching it, it does get air into those tiny loosely woven wool fibers. I even found that the sweater dried quicker, too.

At first I thought this was a letter of laughter. I am sure you think some of the things that appear in this column are. But this one really isn't.

Another thing I found good about this hint was I got the most exercise I had had in a month of Sundays! It's practically like playing "jacks" again. So try it next time you wash your sweater. I'm sure you'll love it like Ruth and I do.

Heloise

LETTER OF LAUGHTER

Dear Heloise:

What does the bottom of an ironing basket look like? I've never seen mine in five

Births

Mr. and Mrs. Richard D. Boudreau of 1421 Sheridan Ave., Escanaba, are the parents of a girl, Jodi Marie, weighing 5 pounds, 15 ounces, born at 4:15 a. m. Dec. 28. The mother is the former Patricia Reed.

Mr. and Mrs. William H. Krieg, 1009 Superior Ave., Gladstone, welcomed their daughter Jennifer Lynn, on Dec. 27 at 9:43 a. m., weighing 7 pounds, 5 ounces. Mrs. Krieg is the former Judith Patrick.

Mr. and Mrs. David J. Trotter, 1304 Minnesota Ave., Gladstone, are the parents of a daughter, Donna Marie, born Dec. 28 at 12:19 a. m. weighing 7 pounds, 15 ounces. Mrs. Trotter is the former Geraldine Germain. This is their first child.

Mr. and Mrs. Charles L. Babcock, 711 Michigan Ave., Gladstone, welcomed a girl, Traci Marie, Dec. 28 at 4:14 a. m. weighing 8 pounds, 10 ounces. The mother is the former Lorraine Gerou.

Mr. and Mrs. Ernest Porath have returned to their home in Bark River after spending the Christmas holiday weekend in Chelsea with their daughter and son-in-law, Mr. and Mrs. Ronald Houle, and grandson, Casey.

Garden Peninsula

Mr. and Mrs. Fred Beaudre spent Christmas day with Mrs. Geraldine Beaudre and family of Manistique.

Mrs. Anna Casey spent Christmas with Mr. and Mrs. Gerard Casey of Manistique.

Mr. and Mrs. Axel entertained members of the Women's Fellowship and their husbands recently at the Congregational church. Guests enjoyed a 7 p. m. dinner followed by cards and gift exchange. Prizes went to Mr. and Mrs. Roy Laux, Reuben Nelson, and Mrs. John Lang. Guests were Mr. and Mrs. Lloyd St. Ours of Marquette and Mr. and Mrs. Charles Rasmussen.

Mr. and Mrs. Reuben Nelson spent the Christmas weekend in Sturgeon Bay, Wis.

Mr. and Mrs. Ed Hoy, David, Mary Lynn, Rodney and Brian of Trenary, Mr. and Mrs. Erwin Thill and Vonda Sue of Cooks spent Christmas with Mr. and Mrs. Martin Thill.

The Home Ec. group enjoyed their Christmas party at the home of Mrs. John Parsly. Games were played and a gift exchange was held. Special prizes were awarded to Mrs. Fern Grenier and Mrs. Ray Allen. The next meeting will be held at the home of Mrs. Milton Hazen on Jan. 5.

Pvt. Don Rochefort of Fort Leonard Wood, Mo. is spending a two week leave with his family, Mr. and Mrs. Milton Farley of Fairport.

Mrs. Milton Farley returned home after visiting her mother, Mrs. Doris Rochefort and brothers in San Diego and Sacramento, Calif.

Mr. and Mrs. Mike McCuin and son Randy of Fraser, Mont. are visiting Mr. and Mrs. Lloyd Ranguette and family.

Mr. and Mrs. Jack Mitchell and family of Flint are visiting her father Gordon Barbeau who is a patient in Schoolcraft Memorial Hospital.

Lloyd Ranguette and Leslie Ranguette returned to Pontiac where they are employed after spending Christmas here with their families.

Mr. and Mrs. Terry Ran-

AMONG THOSE named in the 1966-67 edition of "Who's Who Among Students in American Universities and Colleges" is Miss Ann Elizabeth Harvey, daughter of Mr. and Mrs. George Harvey Jr. of 1208 5th Ave. S. She is a senior at Marywood College, Scranton, Pa., and is president of the Student Council. The "Who's Who" is a directory of distinguished students selected from schools throughout the country. Miss Harvey is presently at home for the holidays.

Aid Tufts School

MEDFORD, Mass. (AP) — The Fletcher School of Law and Diplomacy at Tufts University has been awarded \$500,000 by the Ford Foundation to establish a graduate teaching and research program in international development.

quette of Highland Park, Ill., spent Christmas with their parents, Mr. and Mrs. Lloyd Ranguette and Mr. and Mrs. Kenneth Peterson. Jean Peterson and Lyndell Ranguette accompanied them home to spend a week visiting.

Mr. and Mrs. Leslie DeVet spent Christmas with Mr. and Mrs. Harold Greene and Mrs. Lucy Purtil of Manistique.

Jehovah Visit Set This Week

Christian H. Weising, District Supervisor of Jehovah's Witnesses in this area, and Richard L. Rainer, Circuit Supervisor, will be visiting the Escanaba Congregation this week.

The purpose of their visit is to help in congregational activities, and to help them effectively preach the good news of God's Kingdom. Mr. Weising will also show the film "Proclaiming Everlasting Good News Around the World, on Thursday evening, Dec. 29, at 7:30 p. m.

Mr. Rainer will deliver a public discourse entitled "Not

Giving Up in the Quest For Life."

The address of the local Kingdom Hall is 1801 Sheridan Road, and the public is invited to all sessions. No collection is taken.

Bread And Cigars

PITTSBURGH, Pa. (AP) — A loaf of bread and a box of cigars is all that a thief got for his efforts recently.

The thief approached Constantine Fekaris, 70, as he was will also show the film "Proclaiming Everlasting Good News Around the World, on Thursday evening, Dec. 29, at 7:30 p. m.

The thief then grabbed a paper bag Fekaris was carrying. It contained no money, just the bread and some inexpensive cigars, Fekaris said.

Half Of World Hungry

Food Is Critically Low

By LEON DENNEN

United Nations, N. Y. (NEA) More than half of the people on our planet are underfed or hungry because the world's food production is not keeping up with the birth of mouths to feed.

This is the grim conclusion of a recent study by the United Nations Food and Agricultural Organization.

The net growth in world population was approximately 180,000 babies every 24 hours during the harvest year 1965-1966. This is equivalent to the inhabitants of a moderate-sized city.

Yet despite the fact that the world's population increased by 65 million, total food production was at a standstill. It actually declined by 5 per cent in countries of Asia, Africa and Latin America where the population explosion presents the gravest problem.

Even in the United States and Canada the great surpluses of grain have been dangerously depleted.

Scientists warn that our crowded earth is facing disaster unless there is an effective global policy of population planning and control.

Earth Limited

"The earth is limited, with a fixed amount of land and a limited supply of natural resources," said Sir Julian Huxley, Britain's noted biologist. "Science cannot find a way of developing an undeveloped nation if it continues to produce more babies than it can feed."

According to Dr. Paul Leyhausen of West Germany's Max Planck Institute, over-crowding is "just as great a danger" as the nuclear bomb.

In his view, the basic problem of the population explosion is not only that future generations will not have enough to eat. He fears that their psychological and social health will be undermined by too many human beings being crowded in blocks of houses where adequate space and privacy are impossible.

What Crowding Does

Experiments carried out by the Max Planck Institute have shown that rats and mice held in crowded conditions do not care properly for their young. Scientists have found the same to be true of human mothers forced to live in overcrowded communities where they often cannot maintain proper emotional bonds with their children.

This has contributed to an alarming increase in individual neuroses and social disorders. It may even lead to a breakdown in the democratic social structure.

In the natural state, animals respect the territory and autonomy of other animals of the same species. But when arti-

Neck and Neck

ficially herded together this social order breaks down into a "dictatorship" in which there emerges one strong and dominant animal.

The same applies to human beings, Dr. Leyhausen believes. Only a curb on human fertility will eliminate overcrowding and eventually solve the population crisis.

In a recent message to Congress, President Johnson also warned that "the task of bringing food production and population into balance is the most critical challenge many countries are facing today and in the immediate years ahead."

This does not mean, as Huxley said, that anyone should tell a woman how many children she should have. "But the way to ease the population crisis is to make available all existing information on population control."

For it is man's duty to hold in trust the resources of the earth and to assess what he will do with the future—how he will achieve more enjoyment and less suffering, more knowledge and less ignorance, more human dignity and less human degradation.

other firms against 1967 tax bills. Mayor Albert Budy said Ecorse would need more than \$1 million to operate for the rest of fiscal 1966 (June 30). He said there is no money left in the city treasury.

Ecorse operated this year on an \$800,000 deficit, up \$400,000 from fiscal 1965.

Budy's administration has been blamed by a minority of the City Council for the financial problems.

Councilman Tracy Salisbury, leader of the minority bloc, said Budy's administration has vetoed repeated demands for an austerity program. Salisbury has been critical of salaries paid to men appointed to newly created jobs, and that 25 to 30 of these political appointee jobs could be eliminated.

The firm paid Ecorse \$61,000 to cover the payroll and \$17,300 for operating expenses this week. Last week, city officials said they borrowed \$41,000 from Hot buttered rum drinks were prepared with cider rather than water in colonial times.

Steel Firm Aids Ecorse In Crisis

ECORSE (AP)—Great Lakes Steel Corp., which pays 88 per cent of this Detroit suburb's tax bill, agreed Wednesday to bail Ecorse out of its latest financial crisis.

It was the third time in the past two years that the steel firm has loaned money to the city.

Under the agreement, Great Lakes will make weekly payments to take care of city expenses until the fiscal year ends June 30. Charles Coman, city controller, said the agreement requires the city "to show the steel company the need for the money."

Great Lakes also will review weekly payroll and expense vouchers before advancing the funds.

The firm paid Ecorse \$61,000 to cover the payroll and \$17,300 for operating expenses this week. Last week, city officials said they borrowed \$41,000 from

Hollywood's Ten Big '66 Events Reviewed

By BOB THOMAS

HOLLYWOOD (AP) — This has been another year of change for Hollywood, with long-familiar faces vanishing from the local scene and new corporate structures appearing. Tragedy and romance made the movie-world headlines in 1966. Of equal and perhaps more lasting importance were the immense changes taking place in the power structure — mergers, sellouts, etc. These developments appeared to strengthen the financial condition of the film industry, but the results will not be known until well into 1967.

Here is how Hollywood news ranked from the view of this reporter:

1. The death of Walt Disney. The passing of the movie wizard was a shock to the entire world, his influence having been felt as much as any man's during this century.

2. Ronald Reagan's election as governor of California. Although the candidate soft-pedaled his movie background, the issue of an actor's qualifications for public office was stressed throughout the campaign by his opposition, eventually to no avail.

3. The George Hamilton-Lynnda Bird Johnson romance. The dating of a president's daughter and a movie actor provided reams of copy for newspapers and magazines.

4. Corporate changes. The shift of power was demonstrated by Gulf and Western's purchase of Paramount, United Artists' merger with Transamerica, Jack L. Warner's sellout to Seven Arts. Two other major companies faced problems: Columbia with the purchase of a bloc of stock by the Banque de Paris; MGM with a threatened proxy fight.

5. Frank Sinatra's marriage. The 50-year-old swinger and Mia Farrow, 21-year-old star of the soap opera "Peyton Place," provided the wedding of the year.

6. New film czar. The motion picture producers finally found a man to succeed the late Eric Johnston as head of their association. Jack Valenti, former White House aide, took over his new post with vigorous leadership.

7. The Oscars. There was general approval of the Academy Awards to Lee Marvin ("Cat Ballou") and Julie Christie ("Darling") as best starring performers and "The Sound of Music" as best film.

8. The deaths of Buster Keaton and Hedda Hopper. Coming within a few hours of each other, their deaths seemed to signal the passing of the old Hollywood generation. Other notable deaths: Ed Wynn, Herbert J. Yates, Clifton Webb, Francis X. Bushman.

9. The murder of Mrs. Mickey Rooney. Her death at the hands of an obscure Yugoslavian actor and his subsequent suicide provided a shocking news story.

10. Shoplifting charge against Hedy Lamarr. The onetime "Ecstasy" girl was accused of taking \$86 worth of merchandise from a local department store. A jury acquitted her.

Chips And Splinters

Contributions To Chips Welcomed

The COAST GUARD Cutter Escanaba was called upon to take aboard five Cuban refugees who had escaped from their homeland by stowing away aboard a Greek freighter. They asked for political asylum in the U. S. and the freighter captain summoned the Coast Guard.

The attention of Escanabans to the fact that the city's name is perpetuated by the Coast Guard in the name of a cutter is noted by Mel Jorgensen of Kenosha, formerly of Escanaba. Jorgensen was home for the Christmas holidays.

Escanaba had a cutter named for her back before World War II—a cutter that was torpedoed and sank in the North Atlantic while on troop escort in the war. Previously the Escanaba had patrolled the Great Lakes.

The present cutter Escanaba is based on the East Coast and in the latest reported event took aboard the five Cubans from the Greek freighter 1,500 miles southeast of New York City.

Killed In Vietnam

WASHINGTON (AP) — Sgt. Larry Reed, son of Mr. and Mrs. Byron L. Reed of Bridgeport, Mich., has been killed in action with the Army in Vietnam, the Defense Department said Wednesday.

Society President

DETROIT (AP) — Ralph H. Isbrandt, vice president-engineering of American Motors Corp. is 1967 president of the Society of Automotive Engineers. He takes office at the SAE's Congress and Exposition in Detroit Jan. 8-13.

Flatfooted Farm Boy Big Factor In Green Bay-Dallas Title Clash

DALLAS, Tex. (AP) — Dan Reeves is a farm boy from Georgia with flat feet, 16 touchdowns and a burning desire to help the Dallas Cowboys win their first National Football League title.

Reeves, a halfback with an active sense of humor, claims

he developed the flat feet plowing behind the mules on his father's hog and peanut farm back home.

When Dallas meets Green Bay Sunday for the NFL title at the Cotton Bowl, much will depend on Reeves' ability to move those flat feet as a clutch runner and pass receiver.

Reeves, who played his college ball as a quarterback at South Carolina and was overlooked by both pro leagues in the draft, has carried the ball for 757 yards. Just for the purpose of comparison, the Pack-

ers' famous Jim Taylor ran for only 708 yards this year.

Don Meredith uses Reeves as a prime pass catching threat in his efforts to isolate the fleet Rob Hayes in a man-to-man coverage situation. Reeves has caught 41 passes, more than any Cowboy except Hayes, and rates among the most valuable players on the club.

Reeves does not fit into the list of big bonus boys. He got about \$500 to sign and definitely did not get any no-cut contract.

"I roomed with Obert Logan in my rookie year (1965) at Thousand Oaks, Calif.," said Reeves. "We got \$7 per diem during camp and we were sorry to see the training season end. It meant we took a cut in pay."

Reeves doesn't have to worry about the money any more. He is due a healthy raise in 1967 after his fine season. With the rest of the Cowboys he will be playing for a winning share of about \$8,000 Sunday and a shot at the \$15,000 winning slice in the Jan. 15 Super Bowl with the American League champions.

Injuries Hit Georgia Tech

MIAMI, Fla. (AP) — Emerging from four top-secret practice sessions, Florida Coach Ray Graves says he figures the Orange Bowl football battle between his Gators and Georgia Tech may be won by a single break.

"I give Tech a slight edge on defense and a slight edge on offense — but not much either way," Graves said. "A break, or possibly the lucking game, could be the difference."

Florida's hopes ride with Steve Spurrier, the Heisman Trophy winner, and the focus was on the great quarterback as the Gators held twice-a-day workouts Tuesday and Wednesday with press and public barred.

There was only one sour note in the Florida picture. Defensive halfback George Grandy, one of the Gators' top head hunters, missed all the Miami practices because of a virus attack. But Graves said he hoped to have him back Friday.

Georgia Tech, on the other hand, was plagued by an unusual rash of injuries.

Three key players — line-backer Billy Schroer, defense end Tommy Carlisle and tail-back Jimmy Brown — will be doubtful participants in Monday night's Orange Bowl game, Coach Bobby Dodd said.

The Yellow Jackets will fly to Miami today. Dodd said all practices would be open to the general public "unless there are so many people they get in the way."

Syracuse Drops Secrecy Veil

JACKSONVILLE, Fla. (AP) — A veil of secrecy has been enforced by uniformed policemen around the practice field where Syracuse prepares for Saturday's Gator Bowl game against Tennessee.

In contrast, the Tennessee practice field several miles away has been ringed with spectators.

Coaches Ben Schwartzwalder of Syracuse and Doug Dickey of Tennessee explained their contrasting philosophies.

"You're darn right it could make a difference if a Tennessee scout saw us practice," Schwartzwalder said. "We are putting in some new things, and I'm sure they are, too. We'd like to get a look at some pictures of them working."

Dickey agreed that "we are putting in some new wrinkles." But, he said, he didn't think if a Syracuse scout watched the Vols practice he would learn much to affect the game.

Any visitor who approached the St. Augustine field where Syracuse has been working since Dec. 18 was stopped by an officer in uniform.

Prior clearance for reporters was enough to permit entrance "as long as you don't write anything about what we are working on."

Bruins Settle For Tie Again

By The Associated Press

The Boston Bruins tied the Montreal Canadiens 1-1 in the only National Hockey League game Wednesday night.

It was the Bruins' fourth deadlock in a 16-game span during which they have won only once. The Bruins' Wayne Connelly tied it with a goal at 17:37 of the last period.

Bear Won't Retire Yet

NEW ORLEANS, La. (AP) — It's bad news for Alabama's football rivals — Coach Paul (Bear) Bryant isn't thinking about giving up his post and going into something else.

"I was closer to getting out of the profession two or three years ago," the favorite son of Fordyce, Ark., said today as he prepared for his 13th bowl assignment, a game against Nebraska in the Sugar Bowl next Monday.

"I don't know what else I would do. I've got to work and make a living. This is the thing I know. So I figure I'll stick around."

There have been reports that Bryant, 53, and a grandfather, probably would answer the call of a political career or at least get off the firing line and relax in an easy athletic director's chair.

"Not now," the Bear said. "If I'd planned to enter politics, I would have made the move a

couple of years ago. The same with anything else. No, I'm afraid I'm stuck here for a while — or they're stuck with me."

Bryant's 21-year head coaching career started at Maryland in 1945 and led him through Kentucky and Texas A&M before winding up at his alma mater in 1959.

Despite protests that he needs to work for a livelihood, Bryant is said to be independently wealthy as a result of wise investments.

As head coach, his teams have won 170 games, lost 51 and tied 14 — one of the best records in modern football. His bowl teams have won seven, lost four and tied one. This is his eighth straight bowl appearance.

Three of his Alabama teams won national championships, the last two in a row before the present team, which is the only major unbeaten and untied eleven in the country.

"Football kinda gets in your blood," Bryant said.

Alcindor Gets 24 Points

Wisconsin Badgers Blasted By Uclans

By The Associated Press

UCLA continues to give opponents the shakes, and in Kentucky, Adolph Rupp just sits and shudders.

The top-ranked Uclans, led by towering Lew Alcindor, battered Wisconsin 100-56 in the Los Angeles Classic Monday night as college basketball's tournament turmoil reached its peak.

But at Lexington, Ky., Rupp's Wildcats, who seemed to have snapped their slump by winning their Invitational tourney last week, stumbled again, dropping a 92-77 shocker to lightly-regarded Cornell.

That left Rupp's club — much the same team that reached the NCAA championships finals last March — with a mediocre 4-4 record. And all four losses have come at home, where the Wildcats are usually at their best.

Meanwhile, UCLA gave an awesome display in its LA Classic debut.

Alcindor, the 7-foot-1½ sophomore, scored 24 points and grabbed 16 rebounds as UCLA demolished Wisconsin. He also blocked shot after shot, frustrating the Badger offense.

In the first game of the LA Classic opening round double-header, Georgia Tech upset Michigan 101-70 with Pres Jody scoring 21 points.

Western Kentucky whipped

host Miami 94-89 for the Hurricane Classic title.

Providence and St. Joseph's advanced to the finals of New York's Holiday Festival, both on the strength of strong individual performances.

The Friars got 38 points from Jimmy Walker and whipped Northwestern 91-79 while Cliff Anderson hit 39 for the Hawks, who dropped Rhode Island 91-78.

Michigan State, ranked 10th in the country going into the Quaker City tournament this week, dropped its second straight, there. The Spartans, who were beaten by Villanova in their opener, lost to Bowling Green 75-67 in the consolation round.

Houston, No. 8, got 22 points each from Elvin Hayes and Don

Charney and won their eighth straight, beating Kent State 85-73 in the opening round of the Arkansas State tournament.

Seventh-ranked Cincinnati, not playing in any tourney, kept busy with a 94-66 romp over St. Joseph's of Indiana as six players reached double figures: It was the Bearcats' eighth straight victory.

Mustangs Get Tough Workout

DALLAS, Tex. (AP) — Coach Hayden Fry of Southern Methodist scheduled "the toughest Thursday workout ever" today as he tried frantically to get his team's timing and execution to match its mental and physical preparation for Saturday's Cotton Bowl game with Georgia.

Better cold and a long layoff, forced by the academic schedule of the university caused the Mustangs to falter with their passing and ball handling as Fry worked them long and hard Wednesday afternoon.

"There was no question of desire or effort, and I think my boys are ready to go all out to win, but unless I can get better timing and execution we won't have much chance to beat a fine Georgia team," said Fry grimly.

"Today offers a last chance. We're really going to try, and I may be unduly alarmed when I find we just had one of those days and had to work out the rough spots before we could start to function properly."

Fry said he hadn't been able to have a full-scale workout since Dec. 10.

SPORTS IN BRIEF

LOS ANGELES (AP) — Los Angeles Rams quarterback Roman Gabriel has pleaded innocent to a misdemeanor drunken driving charge. He will stand trial March 8.

Gabriel, a 26-year-old five-year veteran of the National Football League, entered his plea Wednesday. He was arrested Dec. 22.

HOUSTON (AP) — The new North American Soccer League was officially sanctioned as the only major professional soccer league in the United States, according to an agreement signed Wednesday by league officials and representatives of the United States Soccer Football Association.

LAUREL, Md. (AP) — Laurel Race Course canceled its nine-race program Wednesday because of a forecast of freezing rain and snow.

Michigan Puck Team Is Winner

TROY, N.Y. (AP) — The University of Michigan's undefeated hockey team won its ninth game Wednesday night, a 13-3 lacing of New Brunswick, Ont., in the first round of Bensseler Polytechnic Institute's 10th annual invitational.

Colgate defeated RPI in the second game.

Three Michigan players sparked the Wolverines' overpowering attack. Bob Baird had three goals and four assists. Mel Wakabayashi had two goals and five assists and Ron Olyot knocked in three goals.

New Brunswick goalie Mark Jacobson made 49 saves, 22 of them in the final period. Michigan's Jim Keough turned aside 22 shots.

Home Court Victory Streak Reaches 31; 76ers Beat Celtics

PHILADELPHIA (AP) — Coach Alex Hannum of the Philadelphia 76ers admits his team needed every advantage to beat Boston for its 31st straight home court victory Wednesday night in the National Basketball Association.

The 76ers rallied and beat the Celtics 113-108. It was also victory No. 34 against only three losses for the 76ers and gave them a seven-game edge over second-place Boston in the Eastern Division.

In other games Wednesday night San Francisco beat Baltimore 138-115 and New York beat Los Angeles 121-115.

Hannum said after the 76ers' victory, "I was a little disturbed in the first period when we were down by 13 points, and I didn't think we'd get untracked. But in the second quarter Billy Cunningham started running and everybody started running and it got us going, and we finally started shooting them in."

Hannum said "the home court certainly was an advantage for us. The Celtics probably would have beaten us by five at Boston under the same conditions."

The Celtics have beaten Philadelphia twice in Boston and the

76ers have won all three meetings here.

Wilt Chamberlain stood out on offense and defense, collecting 24 points, nine assists and grabbing 32 rebounds. Cunningham scored 23 points.

Paul Neumann scored 30 points, making up for San Francisco's Rick Barry, out with a sprained ankle. Baltimore was missing Gus Johnson who had a knee injury and Don Ohl led the Bullet scorers with 24 points.

Emmette Bryant and Howie Kohnice combined to hold Jerry West scoreless from the floor in the second half in the Knicks' victory over the Lakers. West, who had 25 points in the first half, was high for the game with 31. Willis Reed led New York with 29 points.

Basketball

NEW YORK (AP) — They laughed when Joe Namath was wheeled into the operating room, and breathed a sigh of relief when he was wheeled out. Namath, the New York Jets' \$400,000 quarterback, underwent a complicated double knee operation Wednesday that team physician Dr. James A. Nicholas said was successful and should allow him to run "considerably

better" next season.

The cause of the merriment before the operation was the slight goatee Namath has begun to grow.

The operation at Lenox Hill Hospital was performed by Nicholas.

Nicholas said the operation consisted of the removal of torn lateral cartilage from Namath's right knee as well as some "loose bodies" from the knee joint and the transfer of some healthy tendon from the back of his leg above the knee to replace damaged tendon in the joint.

Namath's leg will be in a full-length cast for five or six weeks and he will remain in the hospital for two or three weeks.

Expect Aerial Show Saturday

SAN FRANCISCO (AP) — If the good weather holds, fans at Kezar Stadium or watching on national television will see a passing display Saturday in the 42nd San Francisco Shrine East-West football game.

The East has featured passing in offensive drills ever since opening the Santa Clara camp. And West Coach John Ralston of Stanford said Wednesday quarterback Don Horn of San Diego would start if there is no rain.

The West co-captains will be Arkansas offensive tackle Dick Cunningham and UCLA defensive guard John Richardson.

In This Corner

with Ray Crandall

The Wyoming Cowboys, who rallied for a 28-20 victory over Florida State in the Sun Bowl game at El Paso, Texas, last weekend, are coached by Lloyd Eaton, former coach at Northern Michigan University. . . . Eaton tutored the Wildcats in one of their two undefeated seasons as his 1956 club scored seven victories and a tie. . . . He was succeeded by F. L. (Frosty) Fetzacca in 1957. . . . Northern's only other undefeated season was an abbreviated 4-0-2 record under C. B. Hedgecock in 1916.

Formation of the new athletic conference involving Stephenson, Norway, Crystal Falls, Gwinn and Marquette Baraga gives the Upper Peninsula 11 prep leagues. . . . The only U. P. schools which do not belong to a conference are Rudyard and Trout Creek. . . . The Anglers competed in the Porcupine Mountain loop up to this season. . . . Rudyard was a member of the Eastern Conference until outgrowing the rest of the schools in the league several years ago.

Dave Bush, former Stephenson prep cage star, was one of four academic casualties on the Ferris State College basketball team just prior to the holiday period. . . . Also lost to the Bulldogs were team captain Greg Sliwka, center Dave Hammer and guard Pat McKenna.

Jerry Busineau, formerly of Wells, will be making the quarter mile drag racing circuit again next summer. . . . Busineau has a new speed machine sitting in Sterling Park, Va., waiting for the coming events in such spots as Indianapolis and Bristol, Tenn. . . . He will be running a Blown 392 cubic inch Chrysler Hemi-Head engine mounted in a 1937 Flat body. . . . The auto has reached speeds up to 150 miles per hour in 1320 feet from a dead start in 10 seconds.

Get your eyes in shape for some serious TV football watching, because there's a pretty imposing list of games coming up soon. . . . Here's a look at some of the action: Saturday, Dec. 31 — Gator Bowl matching Tennessee and Syracuse at Jacksonville, Florida; Cotton Bowl pitting Georgia against Southern Methodist at Dallas; East-West Shrine game at San Francisco. . . . Sunday, Jan. 1 — NFL championship featuring Green Bay and Dallas at Dallas, AFL championship game with Kansas City playing at Buffalo. . . . Monday, Jan. 2 — Sugar Bowl at New Orleans with Alabama meeting Nebraska; Rose Bowl at Pasadena matching Purdue against Southern Cal and Orange Bowl at Miami with Georgia Tech taking on Florida.

MANISTIQUE

Tom Kearney Dies In Trenton

Thomas Kearney, publisher of the Trenton, N. J. Times and one of the nation's well-known communications businessmen, died in the weekend in Trenton at the age of 65.

He headed an enterprise which acquired the Manistique Pulp & Paper Co. from Mead Corp. in 1952 and which owned it until 1959, when it was sold to Field Enterprises, Inc., of Chicago, the present owners, who have built a new power plant at the mill and rebuilt the paper machine.

Kearney, a frequent visitor in Manistique in the years in which he headed the Manistique Pulp & Paper Co., was associated with Gene Autry, the cowboy singer and recreational enterprise financier, and with the late Clarence Budington Kelland, the author, in the ownership of KOOL-TV, Phoenix, Ariz., and KOLD-TV, Tucson, N. M., and of newspapers in those Southwest cities.

The paper deinking process used in the Manistique pulp mill's waste paper repulping operations was developed in the Kearney period of ownership of the mill.

The Kearneys acquired the Manistique mill as part of an international effort in good will to build closer relationships between the United States and South America. The South American newspapers were under great difficulties of newspaper supply when James Kearney, then publisher of the Trenton Times and father of Tom, organized the Pan-American Publishers Congress.

When the price of newspaper delivered in South America rose to \$350 a ton the Kearneys bought the Manistique mill to convert it to manufacture of newspaper for South American newspapers and Nelson Rockefeller bought the Gould Paper Co. in New York State to produce newspaper for South America similarly.

Six months after the two American mills started their deliveries of newspaper to their South American publisher friends, Scandinavian and Canadian manufacturers started delivery of newspaper in South America at a cost of \$106 a ton, less than they were selling it for at home.

The two American mills were released from their contracts by the South American publishers, the Gould mill closed, never to reopen, and the Manistique mill scrambled for other markets for its products.

Propose New Street Section

The possibility of constructing a street southwesterly from N. Mackinac to the Deer and Chippewa intersection, parallel to Soo Line railroad tracks was suggested at the City Council meeting Monday night, as an aid to outflow of traffic from the area north of Deer and west of the Manistique River.

The suggestion by Leo DeMars came in a discussion about a traffic light at Deer and Houghton. The city had checked and was advised a traffic light may not be erected without permission of the state highway department. The state highway department has stated surveys show traffic is not adequate to warrant a light.

DeMars noted a change in the Deer and Chippewa traffic control might provide the breaks in traffic needed to exit from Houghton to Deer St. (also U.S. 2).

Also suggested was a study of traffic outflow from Houghton, Mackinac and New Delta for total traffic from the area.

It was reported the Planning Commission was in agreement on granting a lease to Peterson Fisheries on city land near Sellman's fish market. Siding will be applied to the building to be moved from Harbor Beach.

Information was presented on need for an addition to the public works garage, with housing for graders in a manner not to obstruct flow of trucks in event of fire, a key consideration. Water and sewer rate revisions and changes in cemetery rates for grave digging were suggested by the manager.

Charles Varnum presented his resignation to the Council effective Dec. 30 to begin service in the state House of Representatives. A plaque commemorating him for service, announced at a prior meeting, was presented. Mayor Thor Reque and Merwin White were not present for the meeting.

Circuit Court Begins Jan. 8

Jurors have been drawn for the term of Circuit Court beginning Jan. 8. The calendar contains three criminal cases. They are an embezzling charge against Raymond C. Sunstrom of Blaney Park, a charge of unlawful driving away an auto, against Arnold J. Moses and an appeal from Justice Court by Edward Lee Hamill on a reckless driving charge.

Four general civil cases, seven cases relating to divorce matters, and six auto negligence cases are on the calendar. Nine cases have been placed on the no progress calendar.

Selected for jury duty are Thomas J. Shampine, Merton Reno, Herbert Calhoun, John William Dyer, Helen M. Hulls, John A. Matthews, John P. Hayden, Robert L. Carlson, Clarence P. McNamara, of Manistique; Harry Curran, Helen Lancour, Luella G. Olson, and Clarence Haberlich, Gulliver; Warren L. Harris and Virginia L. Culbertson, Germfask; Lois Hoholik and Edwin H. Olson, Hiawatha Township; Hazel I. Swagart and Betty Olsen, Cooks; Ralph A. Williams and Grace M. Cooks, Manistique Township; Earl W. Sadler, Seney; Sylvester P. Hoholik and Hugo Erickson, Thompson.

The jury reports Jan. 11.

Accident

In an accident at 8:50 p. m. Dec. 26, a car driven by Albert Erickson, 18, of Cooks pulled from a private drive into the path of a car driven by Clayton Hill, 18, of Cooks. Hill was given notice to appear by State Police for driving left of center and Erickson for failure to yield right of way. The accident occurred on County road 442 in Inwood township.

Hospital

Admitted to Schoolcraft Memorial Hospital were: Clifford Lehman, Flora McBurney, Ruth Johnson, John Lundberg, Jacqueline Hebert, Gloria Holbrook and Anna Schultz.

Discharged were: Fern Lebrasseur.

Red Buck Scouts Set Roundtable

The January "Roundtable" for the Red Buck District, Boy Scouts of America, will be held at 7 p. m. Thursday, Jan. 12, at the James T. Jones school.

Cub Scout theme for the roundtable is "Anniversary Month" and the Boy Scout theme is "Your Heritage."

District committee will meet to discuss training, summer camp, Klondike derby and Scout week.

City Explores Power Change

The Gladstone City commission took initial steps to increase the efficiency of the Gladstone Power Plant during an emergency when they met in regular session Tuesday evening at the City Hall.

City engineers were told to proceed with plans and specification to install a crossover to enable either boiler to operate with the need arise.

Costs of rewiring the La-Pine Bros. Plant in the Industrial Park will be obtained. Since the plant has expanded its operation the existing facilities are proving to be inadequate.

Before adjourning the commissioners approved a refund of retirement pension funds to Raymond Juneau, a former city employee.

The Gulf States produced nearly 61 million pounds of breaded shrimp in 1965.

Dartball

In the finals of the mens dartball league, played at Eddy's, the Hiway beat Westwood 2 out of 3 games—in the consolation game Franks beat Swallow Inn 3 straight. Art Brandie won the Tournament batting crown with a .528 average.

Schedule for Jan. 4:
 Westwood at Spot Muffs at Arcadia
 Franks at Hiway
 Spars at Lincoln House
 Idle Time at Swallow Inn
 Eddy's at Wallys

Northern Lands Eight Players On Michigan All-Star Grid Squad

By The Associated Press
Northern Michigan University grabbed off eight spots on the Michigan All-Star Collegiate football team chosen by the Associated Press.

The team, chosen by sportswriters and coaches across the state, has Bill Doolittle of Western Michigan as Coach of the Year.

There are five players in the

backfield because of ties in the voting. Tim Majerle of Western Michigan, Wally Hampton of Central, Lonnie Head of Eastern, Jim Bell of Albion and Larry Snoddy of Northern were selected as backs.

Bell is a 5-9, 180-pound All-MIAA back who led the league in rushing with 668 yards in 141 carries and in scoring with 42 points.

All five were high-scoring runners. Majerle led his team to a tie for the Mid-American Conference championship.

The ends are Mick McCarthy of Albion and Larry Fowler of Hillsdale. McCarthy, a 6-5, 222-pounder, led the MIAA in pass receiving with 20 catches for 378 yards. Fowler was named to the second string Little All America AP team.

At the tackles are Dennis Porter of Northern Michigan and Al Borgman of Alma. Bergman placed on the All-MIAA team both offensively and defensively this fall, a feat he duplicated on the AP Allstate team.

Guards are Curt Marker of NMU, also named to the Little All America squad, and Paul Verska of Central Michigan.

Ron Kerr of Northern Michigan holds down the center spot.

The defensive team features Barry Siler of Albion at one end, Siler, 6-5 and 224 pounds, was voted the Most Valuable Player in the MIAA, the first time for a defensive player to win the honor.

Siler, a holdover from last year's AP Allstate team, was a captain noted for his pass rushing and great pursuit.

A tie in the voting put Byron Johnson of Northern Michigan, Keith Bird of Alma, Eric Pape of Central Michigan and Don Schlietz of Michigan Tech deadlocked for the other end spot.

At defensive tackle are Bob Rowe of Western Michigan and Borgman of Alma again.

Linebackers are Bob Parella of Olivet, Jack Spuhler of Northern Michigan and Ivory Hood of Eastern Michigan.

The defensive backfield is composed of Don Kreuger of Central Michigan, Gordon Herick of Alma, John Christant of Northern Michigan and Bob DePerro of Northern.

Spartan Coach Read It Right

PHILADELPHIA (AP)—Michigan State coach John Benington didn't cringe when fellow Big Ten coaches named his Spartan basketball team as the favorite to win the conference crown this season.

But he didn't exactly leap for joy either.

Time and again Benington has said his team is good but not great.

People may start listening after MSU's second straight loss in the Quaker City Basketball Tournament Wednesday night.

The 10th-ranked Spartans, upset by Villanova Tuesday night, were thrashed by Bowling Green of Ohio 75-67.

Walt Piatkowski, Dick Rodgers and Al Hairston combined for 56 points as Bowling Green, a Mid-American Conference team, boosted its record to 5-3. MSU, now 5-3, led only once briefly in the game.

Bowling Green built up a 40-20 halftime margin and blocked every Spartan rally in the second half.

Piatkowski and Rodgers each scored 19 points and Hairston added 18. MSU's Matthew Aitch notched 24 points.

In a consolation game, LaSalle defeated Niagara 86-72.

PIGGY BACK seems to be the name of the game, but in the last game of hockey that's just the way Boston's John McKenzie found himself astride Jim Neilson of the New York Rangers in a battle for the puck.

Clay, Terrell Nearly Stage Preview Battle

NEW YORK (AP)—"Oh, he needs to be beaten real good. I'm going to knock him out."

Ernie Terrell, his eyes still smoldering, meant the words for Cassius Clay, following a hot tiff between the two heavyweights that almost broke into a free fight Wednesday.

After calling Terrell "an Uncle Tom" because the towering fighter wouldn't call him Muhammad Ali, the Muslim name Clay prefers, Clay slapped Ter-

rell's right arm and challenged him to "fight it out right now" at a Madison Square Garden press conference.

The 6-foot-3 Clay doffed his sports coat and tried to get at Terrell while the 6-foot-4 Terrell lunged at Clay. They were about six feet apart in a jam-packed small room in the Garden when the action started.

Various handlers and others collaborated to keep them apart.

Boxing veterans were dumbfounded at the unprofessional-like behavior of the two heavy-weight champions, who are scheduled to fight for prices ranging to a \$100 top at the Houston Astrodome, Feb. 6.

Terrell is the World Boxing Association's champion while Clay is regarded as champion in most parts of the world.

If this was a publicity stunt, then the acting was magnificent. Both Clay and Terrell would have received top grades from the Actors' Studio.

The nasty accusations made by Clay may have hurt Ernie's feelings but the fracas certainly helped return attention to the upcoming fight.

By a strange coincidence, the whole bit took place while a television camera was grinding and both were being interviewed by Howard Cosell, the ABC sports commentator, in the boxing publicity office in the Garden.

The occasion was a Garden press conference to announce that the big arena will show the telecast of the fight.

Willie Horton Sprains Ankle
SAN JUAN, Puerto Rico (AP)—Willie Horton of the Detroit Tigers has suffered a severely sprained right ankle and will be lost for at least a week to the Mayaguez team of the Puerto Rico Baseball League.

Horton was chasing a long fly ball Tuesday night when he slipped on the wet turf. He was taken to a hospital, where X-rays revealed a severe sprain.

Bill Mazeroski of the Pirates, Leo Cardenas of the Reds and Billy Williams of the Cubs played in every game for their teams last season.

The Atlanta Braves placed four men among the National League's top 13 sluggers last season. They were Joe Torre, Hank Aaron, Felipe Alou and Rico Carv.

Third baseman Ken Boyer led the New York Mets in slugging last season with a .415 mark.

Bill Mazeroski of the Pittsburgh Pirates set a hitting record last season when he took part in 161 double plays. It was the most ever made in one season by a National League second baseman. It was the seventh time he led the league which is another record.

FOUR INCHES of snowfall Wednesday in Escanaba left a pretty covering, left, on an evergreen tree at the Delta County building, a snow shoveling job for Linda Cass, right, daughter of Mr. and Mrs. Vernon E. Cass, 221 N. 9th St., and a station wagon, bottom, snowbound on Ludington St. in front of the Chamber of Commerce building. (Daily Press Photos)

Downtown Parking Plan:

City Expects Businessmen To Contribute \$175,000

Proceeding with a program of additional public parking for Escanaba's downtown business district, the City Council Thursday night approved a participation project which will cost an estimated \$225,000.

Of the total, the City of Escanaba will be prepared to contribute \$50,000 and the business property owners of the area will be expected to participate in assessments totaling \$175,000.

Letters are being addressed by the City to about 50 owners of business properties who

are within the assessment area which would be centered by the public parking lot.

The Council at the beginning of planning studies for the city a year or more ago, at the request of the merchants of the downtown district, gave priority to the central business district parking facility project.

Walking Distance

The proposed parking lot will be on the south one-half block of 1st Ave. N. from 11th St. to 150 feet west of N. 12th St.

City Manager George Harvey and Engineer-Planner John Dulek said that letters will go to each of the owners of business properties located within a walking distance of 600 feet of the proposed parking lot.

The letters inform the property owner that the Council has established a benefit assessment district and has used the building area as the base for distributing the assessment within the district. Other factors applied in adjusting the building area are: present use, and proximity to the proposed parking lot.

The Council last night agreed to the method of assessment based on: 1—The number of square feet of floor space in the building; and 2—The proximity of the building to the parking facility.

The square footage will be determined on an adjusted base according to the variety of use: Retail, office space, and living quarters. The assessment will be at the rate of \$1 per square foot of net adjusted building area.

Questions Invited

"We are sure there will be questions from property owners who receive the letters, and we welcome them so that we can give answers and explanations," said the city manager.

He asked that questions be directed to him or to City Engineer Dulek.

Harvey noted that once the parking area becomes city-owned the city will be responsible for its maintenance, including all snow removal.

A report to the Council on the reaction of the business district to the assessment proposal is hoped to be made to the Council sometime in January, Harvey said.

Recreation Project

The Council in other business: Authorized an agreement with the Peninsula Air Transport Co. of Escanaba for the use of the Municipal Airport. Scheduled service by PAT is expected to start about mid-January. The agreement is for five years, with the fee \$300 annually to be negotiated at the end of the first two years.

Adopted a resolution endorsing the proposed merger of the Chicago & North Western and the Milwaukee Road. The Council was assured that the merger would in no way adversely affect the Escanaba & Lake Superior Railroad.

Discussed the suggestion that the City seek federal financial participation in a proposed recreation building project, and set 6 p. m. Thursday, Jan. 5, as the date and hour for a further consideration of the subject. The regular Council session will be at 8 p. m. the same night.

Approved the leasing of seven acres of city-owned land for five years to Ben Yagodzinski for storage in connection with his industrial expansion that will employ four or five more people. The annual rental is \$300. Should the land in the future be needed by the city, the relocation of Yagodzinski's operations would receive the city's assistance.

Reagan Sworn In By Mistake

SACRAMENTO, Calif. (AP) — By mistake, and in the most casual fashion, Ronald Reagan already has taken his formal oath as California's 33rd governor.

The Republican governor-elect thought he was signing a routine loyalty oath when the document was read to him by a deputy secretary of state in Reagan's Sacramento office on Tuesday, an aide said.

But it turned out to be California's oath of office, which consists largely of a pledge to uphold the constitutions of California and the United States and not to try to overthrow the government.

"No one thought it was a swearing-in procedure," said Lyn Nofziger, Reagan's press secretary, "but he did raise his hand and affirm what had to be affirmed. But it was not fully explained to him."

Bert Clinkston, deputy secretary of state, said, "when I got there, I assumed that he had been briefed but nevertheless told him. This is the document that will officially make you governor." Then he went ahead with the oath.

Reagan already had made careful plans to take the oath in the capitol rotunda at 12:01 a.m. Jan. 2. The sooner the better, he said, to assure continuity of government.

Reagan will go ahead anyway with the 12:01 a.m. swearing in before newsmen and about 150 invited guests. He'll also hold a public inaugural Jan. 5.

"It isn't going to change anything," Nofziger said.

Sledding 'Breaks'

LAYTON, Utah (AP) — Eight-year-old twins David and Darlene Bagley are each sporting a broken arm — received within minutes of each other.

Both received their "breaks" while sledding.

Fire Destroys Malting House

MENOMINEE — Fire of undetermined origin broke out about 8:37 p.m. Wednesday and destroyed the old Menominee Brewery malting house on the corner of 1st St. and 14th Ave.

All 18 firemen from the Menominee Fire Dept. and 10 men and two trucks from the Marinette Dept. battled the blaze throughout the night and continued to pour water on the ruins this morning. About 300,000 gallons of water were used.

The building, unoccupied since 1961, was one of three on the property owned by Hugh H. Cavill and John F. Stang, Menominee businessmen. The site had been proposed for inclusion in an urban-renewal project in Menominee and at the time it was estimated that \$14,000 would be needed to raze the building.

There was no estimate of loss made today.

Damage was confined to the tall malting house building. The interior of the building, which was empty, was gutted, but the walls remained standing.

Pilot Shortage Probe Planned

WASHINGTON (AP) — The Senate Preparedness subcommittee will launch a detailed investigation next year into pilot shortages in the armed services, sources revealed today.

The subcommittee, headed by Sen. John C. Stennis, D-Miss., is reliably reported to be in the process now of deciding whether to hold a special hearing on the pilot problem or incorporate the investigation into its annual probe of readiness.

"I think we're in a very bad situation," one subcommittee source said. "We've got a very severe shortage of pilots and it's going to become worse at our rate of loss."

About 300 planes have been shot down over North Vietnam as of Dec. 14; more than 150 were lost there in 1965.

Secretary of Defense Robert S. McNamara, in a move to ward off even greater shortages, has approved sharp increases in pilot training for the Navy, Air Force and Army.

Abner Doubleday is credited with laying out the first true baseball diamond in 1839.

Orthopedic Surgeon To Practice In Escanaba

Dr. Ian Sayani

Dr. Ian Sayani has joined Dr. Harold Q. Groos in associated practice of medicine and surgery with joint offices at 1015 1st Ave. S. The two physicians announced today.

Dr. Louis Groos, brother of Dr. Harold Groos, also has his professional offices at that address and is continuing his practice there. The brothers have been associated in practice, but Dr. Sayani's arrangement is solely with Dr. Harold Groos.

"I will be associated with Dr. Sayani for an indefinite period," said Dr. Harold Groos, who indicated that he would restrict his own practice, doing mostly practice in trauma and industrial work.

Dr. Sayani, an orthopedic surgeon, will restrict his practice to orthopedics, the correction and prevention of deformities.

Drs. Louis Groos and Harold Groos have been associated in practice in Escanaba since 1928 when the latter returned to Escanaba, following the former, who started practice here four years earlier.

The brothers are sons of the late Dr. J. O. Groos, son of pioneer Peter Groos, a German immigrant for whom the community of Groos on the Escanaba River is named. Dr. J. O. Groos started a pharmacy on Ludington St. at 10th Ave., and then turned it over to his

brother, Peter, when he entered Physicians & Surgeons Medical School at the University of Illinois. He returned as a physician to practice in Escanaba in 1902 and his sons, Louis and Harold, followed him in the medical profession. Both are graduates of the University of Illinois College of Medicine.

Dr. Harold Groos attended Lawrence College and the University of Wisconsin before going to Illinois. He was graduated in medicine in 1924 and interned at Chicago's West Side Hospital. He entered general practice here and has accented industrial medicine and surgery.

Dr. Sayani (pronounced See-ahn-ee) was born in Bombay, India and moved with his family at the age of 5 to London, England, where he grew up and was schooled. He is a graduate of the Battersea School in London and had his pre-clinical medical schooling at Guy's Hospital, London, and his clinical training at the University of Glasgow, Glasgow, Scotland, graduating in 1948.

He did post-graduate work as an orthopedist at the Royal National Orthopedic Hospital, London; the Addenbrookes Hospital, Cambridge, and was on the faculty of the Hammersmith Medical School, London. He was serving as a consultant in orthopedics and traumatic surgery at the Ipswich & East Suffolk Hospital in Suffolk when he came to America last March.

He became assistant medical director of the White Pine Copper Co., at White Pine, in Ontonagon County, one of the Upper Peninsula's largest industries, and was also in private practice there. He comes to the Escanaba area from White Pine and he and Mrs. Sayani are making their home at Bay View.

Mrs. Sayani is the former Anne Schofield of Blackpool, England. She is a nurse. They have been wed 24 years. Both like tennis, chess and riding.

Upper Peninsula, Area Take Snow Storm In Stride

(Continued from Page 1)

were listed at 30 per cent for tonight and 10 per cent Friday.

The storm, powered by gusty winds, spread over most of western Pennsylvania and parts of New York State and Virginia and into Washington, D.C., and areas in New England.

The U.S. Weather Bureau said hazardous-driving conditions had been posted for a 13-state area from Virginia to New England. The bureau said the outlook was for snow, sleet and freezing rain over much of the Northeast today and tonight.

At least six persons, three in Rochester, Minn., two in Chicago and one in Rockford, Ill., died, apparently of heart attacks, while shoveling snow.

Romney To Head Generator Rite

Gov. George Romney has accepted an invitation to dedicate Unit No. 4 of the Upper Peninsula Generating Co.'s Presque Isle Station in Marquette on Feb. 4.

He will participate in the dedication in conjunction with his third U.P. inaugural, which will be held in Marquette the same day.

The Governor also dedicated Unit No. 3 at the Presque Isle Station on Feb. 7, 1964.

Unit No. 4 will increase the station's capacity to 180,000 kilowatts, by far the largest in the Upper Peninsula.

Built at a cost of \$8 million, the fourth unit will have a capacity of 60,000 kilowatts.

Average cost a kilowatt is \$134.

The unit is rated at 433 million kilowatt hours. Since the average home uses 4,800 kw a year, the new unit has sufficient capacity to meet the electrical needs of 10,000 homes.

However, the primary purpose of the new unit is to meet needs of the Cleveland Cliffs Iron Co. for power for beneficiation of iron ore.

U.P. Generating Co. is owned jointly by CCI and the U.P. Power Co. and is operated by the latter.

Completion of the new unit gives the U.P. Power Co. a 1,000 per cent increase in the generating capacity of its system since 1954.
